BUSINESS OPORTUNITIES WITH ARGENTINA

10 to 11 May 2007, Kuala Lumpur

**ARGENTINE TRADE MISSION TO MALAYSIA
MAY 10TH AND 11TH, 2007
KUALA LUMPUR**

The Argentine Trade Mission to Malaysia is organized by the Argentine Ministry of Foreign Affairs, International Trade and Worship together with the Undersecretariat for Small and Medium-Sized Companies and Regional Development of the Ministry of Economy (through the Proargentina), the Ministry of Production of the Province of Buenos Aires. The participating companies are producers and exporters of the following sectors: food, CNG, electric machinery, non-electric machinery, chemical and pharmaceutical products, and others, they visit MALASIA with the purpose of developing new business opportunities.

The aforementioned have been identified as products that are either currently imported by MALASIA from third countries or, alternatively, markets for which there are opportunities for companies of both countries to cooperate.

The market sectors included in the Argentine Trade Mission to Malaysia have proven to be highly dynamic for Argentine exports in the past years and have proven to be highly competitive in international markets. Other areas of interest will also be examined during the Trade Mission for potential foreign investments in Argentina. The organizers look forward to pointing out the benefits of these business opportunities to potential malaysian partners in hopes that this Trade Mission will promote increasing economic and commercial relations between Argentina and Malaysia.
